THE ULTIMATE GUIDE TO ART

monopol-magazin.de is the most popular German website for art in Europe (ca 1.5 m page impressions/month). Our online editorial team daily reports on national and international art venues, artists and exhibitions in German.

The category **VENUES** serves as an index for galleries, museums, institutions and collections to present their location and opening times free of charge: monopol-magazin.de/venues

The participants of VENUES are daily presented at random on the landing page of monopol-magazin.de

The category **SHOWS** offers the possibility to promote up to three exhibitions per location including text and photos in the online calendar: monopol-magazin.de/shows

An upgrade makes it possible to publish the online calendar entry additionally in the print edition of Monopol.

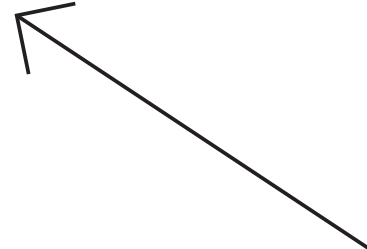

GRAB ATTENTION:

- The popular newsletter of Monopol (ca. 11,000 subscribers) recommends two SHOWS entries at random per day.
